Proposals

In order to improve the situation of refugee crisis we propose the following :

Better living conditions for refugees within the camps

End of EU -Turkey agreement (since March, 2016 many refugees every year are sent back from EU to Turkey. For this EU gave 6 billions Euros to Turkey).

Equal distribution of refugees among EU countries

Better integration of refugees in the society (learning the Greek language, becoming part of the cities, not living at 'ghetto', working)
